

- Prefers set A - color scheme, circle treatment
- In terms of mobile landscape, the cast headshots feel very big - shrink it
- Texture in white space to make them feel less floaty
- Likes the way the images are used to separate sections
- Likes the divide, wants the stamp imagery in other tabs as well
- Add footer (maybe scrolls up to the top?)
- Main image is not as vibrant, could replace it? Or turn down the brightness
- Button treatment - maybe when you hover over it, line is drawn on
- Maybe don't need characters section - could be too repetitive with cast list in main page
