## Project Title: Call Me By Your Name

I want this website to be about the movie *Call Me By Your Name*. I want it to be narrative focus and built through two or three long main pages. I want the navigation to be on the side so it doesn't disrupt the flow of the pages.

- **Home Page:**
  - Introduces the film with reception and the book that it was based on
  - Also cast and crew introduction too
- **Plot/Character Page:**
  - Plot page that sections the movie into different scenes
  - Introduction of the characters at the very top
- **Styles and Themes:**
  - Talk about director's intent with the filming direction
  - Location of film
  - The soundtrack and music
- **Sources:** Wikipedia
